whether the deficiency impacts the negotiations. If it does not, the contracting officer should proceed with negotiations. If it does, the contracting officer should consider other alternatives, e.g.—

(i) Allowing the contractor additional time to correct the estimating system deficiency and submit a corrected proposal;

(ii) Considering another type of contract, e.g., FPIF instead of FFP;

(iii) Using additional cost analysis techniques to determine the reasonableness of the cost elements affected by the system’s deficiency;

(iv) Segregating the questionable areas as a cost reimbursable line item;

(v) Reducing the negotiation objective for profit or fee; or

(vi) Including a contract (reopener) clause that provides for adjustment of the contract amount after award.

(3) The contracting officer who incorporates a reopener clause into the contract is responsible for negotiating price adjustments required by the clause. Any reopener clause necessitated by an estimating deficiency should—

(i) Clearly identify the amounts and items that are in question at the time of negotiation;

(ii) Indicate a specific time or subsequent event by which the contractor will submit a supplemental proposal, including cost or pricing data, identifying the cost impact adjustment necessitated by the deficient estimating system;

(iii) Provide for the contracting officer to unilaterally adjust the contract price if the contractor fails to submit the supplemental proposal; and

(iv) Provide that failure of the Government and the contractor to agree to the price adjustment shall be a dispute under the Disputes clause.

215.470 Estimated data prices.

(a) DoD requires estimates of the prices of data in order to evaluate the cost to the Government of data items in terms of their management, product, or engineering value.

(b) When data are required to be delivered under a contract, include DD Form 1423, Contract Data Requirements List, in the solicitation. See PG I 215.470(b) for guidance on the use of DD Form 1423.

(c) The contracting officer shall ensure that the contract does not include a requirement for data that the contractor has delivered or is obligated to deliver to the government under another contract or subcontract, and that the successful offeror identifies any such data required by the solicitation. However, where duplicate data are desired, the contract price shall include
the costs of duplication, but not of preparation of such data.

PART 216—TYPES OF CONTRACTS

Subpart 216.1—Selecting Contract Types

Sec. 216.104–70 Research and development.

Subpart 216.2—Fixed-Price Contracts

216.203 Fixed-price contracts with economic price adjustment.

216.203–4 Contract clauses.

(1) Generally, use the clauses at FAR 52.216–2, Economic Price Adjustment—Standard Supplies, FAR 52.216–3, Economic Price Adjustment—Semistandard Supplies, and FAR 52.216–4, Economic Price Adjustment—Labor and Material, only when—

(i) The total contract price exceeds the simplified acquisition threshold; and

(ii) Delivery or performance will not be completed within 6 months after contract award.

(2) Follow the procedures at PGI 216.203–4 when using an economic price adjustment clause based on cost indexes of labor or material.

[71 FR 39007, July 11, 2006]

216.203–4–70 Additional clauses.

(a) Price adjustment for basic steel, aluminum, brass, bronze, or copper mill products. (1) The price adjustment clause at 252.216–7000, Economic Price Adjustment—Basic Steel, Aluminum, Brass, Bronze, or Copper Mill Products, may be used in fixed-price supply contracts for basic steel, aluminum, brass, bronze, or copper mill products, such as sheets, plates, and bars, when an established catalog or market price exists for the particular product being acquired.

(2) The 10 percent figure in paragraph (d)(1) of the clause shall not be exceeded unless approval is obtained at a level above the contracting officer.

(b) Price adjustment for nonstandard steel items. (1) The price adjustment clause at 252.216–7000, Economic Price Adjustment—Nonstandard Steel Items,
